Do you have any suggestions or feedback on how the energy consumption management dashboard could be improved (this could include KPIs or chart you feel like will make the data visualization better)?

15 responses

No

Make the kpi tags more descriptive.Its hard to understand the initials provided what they stand for .

improve the color scheme and make the panels more variable

It is working slowly

No

NA

It's was a user friendly one. No suggestions

no

none

No suggestions for now!!

No mistakes at such

Good

I don't understand all the labels

Same concerns as in first
