Do you have any suggestions or feedback on how the energy consumption management dashboard could be improved (this could include KPIs or chart you feel will make the data visualization better)?

16 responses

No

some metrics are vague. helpful to make it more intuitive

Kindly give more description for understanding purpose. Thank you.

improve the color scheme and make the panels more variable

Try to make it faster

NA

No suggestions. It was user friendly one

no

No suggestions for now!!

N/A

Good

Great dashboard. Colors could be better

'''

One metric is repeated. Will be helpful to carefully add descriptions of the metrics
